

Volunteer Committee Members Needed

Bar Nunn Community Development Plan Update: 2017- 2018

Technical Review Committee

The Town of Bar Nunn is looking for a few interested residents and business owners to join the Bar Nunn Community Development Plan Update Technical Review Committee. The Community Development Plan's purpose is to provide the community with a policy for directing future growth and development for the next 15-20 years. Normally, it is updated every 5-10 years to stay current.

The committee is tasked to review the existing 2009 Bar Nunn Community Development Plan for relevancy, and to add, revise or maintain existing goals, policies and strategies based on current community responses (an online survey will be developed by the Committee). The Committee will ensure that the final document is representative of Bar Nunn, as a community.

There will only be two to three evening meetings for the Technical Review Committee members (dates/times will be coordinated by the committee) over the next 6 months. There will be some reading and review.

If interested, please provide your contact information by October 27.

Thank You!
